Did you know only **1 in 4** car seats is installed correctly?

All children ages **4, 5, 6, and 7** are required to ride in a car seat or booster seat unless: The child is 8 years old, or weighs more than 80 pounds, or is taller than 4 feet 9 inches.

Do you know which seat is best for your child?

About **650** children under age 13 are killed in crashes in the US each year. Of those killed, **1 in 3** is unrestrained.

Keep your child in the back seat until age **13.**

Car seats reduce the risk of fatal injury by **71%** for infants and by **54%** for toddlers.
