	<p>Golf Course Road- believe it is a township road (recent county/township merger hot issue). Local Election moved to partisan, consensus was commission not in favor, hangs around. Jim Gates asked about the focus point of OCED related to Overbrook, KanBuild building sold, Recycler will be in place before long he believes. Live in a quality community. Appreciates the opportunity to visit it with us, he has an open door policy.</p>
<p>SPECIAL REPORTS: OHA PRESIDENT CLIFF FISCHER/RED-WOOD DEVELOPMENT: (D.2)</p>	<p>Redwood Development discussion Cliff Fischer researched references and visited sites (Susan Averill visited Paola too). Strip down to the stud walls and re-build, upgrade heating and cooling. Seemed too good to be true. Cliff contacted Fred Bentley Tax Credit Head he had good things to say about Redwood. Would have to relocate building residents while rehabbing, will do one building at a time. To OHA Board and residents who have discussed, this seems like a real good deal. If they are to add a building they will need to do a marketing study. Don had sent a summary to Council along with a copy of the proposed management agreement. Don believes this presents a couple of options, council can move to pursue a sale agreement or not. Mike Coffman input was that it was an opportunity that we might not get elsewhere and would reduce the possibility of additional financial responsibility by the city. If the value is such that we can't receive cash for our equity, ask for a timeline for the building of an additional facility. A new building might include a larger community room, storm shelter. Where would the additional building be? Not decided at this point. How would we pay otherwise, city or board? We have 10 rental assistance units, a rate increase really only affects about 6 tenants (due to their income). Cabinets are the original units in most. Redwood hasn't really dramatically increased rents from what we can tell historically. Paola units are nice Cliff said. Window here that if we wait too much longer the opportunity to apply for 2014 tax credits in February will be missed. Specifics of the sale agreement aren't known but the indications are that things are negotiable. Believe it was a 50 year mortgage to begin with, approx. \$200000 current payoff. What does the Council need to do? Jim Gates (Joanne Allen) moved to allow the OHA to proceed in conversation with the Redwood to agreeable terms and then bring to the Council for final approval. Motion carried 5-0. Cliff will work on the management plan. When it is time to discuss further Jim Gates and Don Schultz will be involved in discussion. Brenda will be in next week to begin due diligence.</p>
<p>SPECIAL REPORTS: DISCUSS USE OF PARK/LAKE FOR EVENT IN 2014: (D.3)</p>	<p>Lisa Don Carlos was in attendance to discuss holding a rod run in Overbrook. Brought proposal for the 1st Annual Route 56 Rod Run in downtown Overbrook. Discussion. Buy-in from the local businesses- thought is that it will be done as a charitable fundraising event (city or breast cancer awareness are possibilities among other things). For the first one she believes that could be done downtown, looking at October 2014 (not competing with Maple Leaf Festival). Jon Brady mentioned ad dollars thru OCED as a possibility to look in to. Classic cars, muscle cars, didn't think motorcycles. Ed mentioned Market Street might be an option. The harvest could impact traffic in October. Time of day would be a consideration too as would a street dance. Restrooms- Don believed that the event coordinator would be responsible. We have not budgeted for this, length of time to prepare will allow plan fundraising. Market could also possibly utilize gymnasium by then. Consensus was to allow them to move forward. Would they be able to cruise Brookside? Jon suggested that they contact Scott Averill. Santa Fe Trail. Confining a beer garden specific</p>

	area might be easier to partner with area business. Event Application from Jim Koger will require insurance. Her husband is from Overbrook.

PROJECT UPDATE: LIBRARY PROJECT: (F.1)	<p>Library Progress Meeting Carol and Peggy issues with electrical outlets. One was for fax machine placed behind cabinet, for a coffee pot, and by the double oven. Gap in wall floor to ceiling in the community room. Sliding doors that go over the openings for the storage of tables, etc. track on top but nothing on bottom so the doors swing. They are looking at options. Bathrooms getting closer, some fixtures are in, old electrical will be disconnected and area above drop ceiling cleaned up. Insulation is in the rafters. Jon concerned that not demolishing old above the new ceiling will cause us maintenance issues in the future. Wall not straight in community room. Rafters some go in to wall some don't, hardware, other stuff we need to make sure that it is added to the punch list. But what can we do about it that late in to the project? Won't it need to be done before the carpet is in so it doesn't get all over the carpet? Discussed doing a walk through to identify the issues. Decision not to pour the sidewalk to the city sidewalk. Our responsibility for the handrails. We need to get the handrails from Dale. There will be a deduction on the cost for us doing the sidewalk. Ice issue splash block right by heating and cooling will go on sidewalk to the south. Gate will go on the outside of the HVAC pad. Jon said that the drain has to be cut and go out beyond the sidewalk. Donnie talked to Dale about the old meter today. Will pull out and cap it and then cover it up (cap at alley). Comment on the alley not having lighted barricades on the cut out portion of the alley. Alley work discussion: if they are done with their concrete Jon believes that we can do the alley work and won't need much gravel in between the ADA spots. Can we tell them we will accept responsibility for filling that (allowing a deduct for them)? Jon recommended that we do that. Discussion. Jon believes we need a statement saying they are done with the alley and then the change order for the alley way. Library Board has approved the \$7,000 one but not CO#7. Don Schultz will talk with Lonnie about that. East side grade has been set. Need a decision from City. Susie left 8:25pm. North side. Do we want a sidewalk between the building and the street. Jon believes there are two opinions. How much room between building and the street? Sidewalk would be next to building with valley gutter. Widening street was discussed as well as possibility of gravelling small area in conjunction with widening street. Consensus was sidewalk who takes it to the Library Board? Ed asked where will people park? Could we consider acquiring the lot north of the post office? There is room for the no parking signs. Round concrete in to sidewalk going south on the west. Over a foot of excavation in alley. Excavating Joy Schwanke's driveway. Jon will ask BG to get us a bigger copy of the plan. May go as far as 15 feet back in Joy's driveway. Will need to pour an approach. Deduct for the section of concrete that KES broke. 4 feet wide 20 feet long approx. \$5 per square foot. Straight elevation from wood pole (it will be removed) replace north to corner. Planned on replacing both upper and lower sidewalk. Have not approached the businesses about replacing sidewalk to the south. Would they make some sort of contribution? Don indicated that he felt that it would be good to get a bid from Leo so we could have a figure to work on for discussion. Original bids \$12,000 plus excavation (approx. 3-5,000) plus sidewalk in front of library Jon est total to be approx. \$25000. Jon will get bid from leo. Eventually we will need to work on plan for the alley further south. Jon will continue to work with Leo and Don S. will check with Lonnie and</p>

	Hans tomorrow. No AB 3 or dirt work to be added in Jon's mind. Jon said take 6-12 inches out and put black dirt down. Siding is the biggest holdback but no extension was requested. Plumber can't install outside fixture until siding installed. Pay Application #11 falls within 107000 will come from CDBG rest locally. Norton Trust 226000 260000 endow ksb 2591. Don will sign pay app #11.

Looking for snow plow and spreader whole setup. Oklahoma might be a possibility too. Tandem axle diesel. CDL should not be a problem. How do we best proceed? Will take time to find. Do we look at contract service in meantime? Donnie hoping we could make it thru this winter but no guarantees. Maybe \$4-6,000 in sealed bid for our existing truck. Spreader takes work every year they try to take precautions when put away for season. Any advantage to going to liquid? Consensus was to start looking. Mayor indicated that we may need to call a special meeting to address if something comes up. Carol asked about book box Donnie had gone through. Roof above bathroom still leaking. Being used as a patio it appears. Don S asked Ed if he sees people up there- Donnie will check further tomorrow. No smoking sign for City Building?

**REGULAR COUNCIL MEETING
CITY OF OVERBROOK**

MINUTES – December 11, 2013

<p>CALL TO ORDER, ROLL CALL: (A.)</p>	<p>Mayor Don Schultz called the December 11, 2013, Regular Council Meeting to order at 7.00 p.m. in Overbrook City Hall, 401 Maple, Overbrook, Kansas.</p> <p>Roll was taken by the City Clerk and it was determined that a quorum was present. Mayor Don Schultz, Council Members Joanne Allen, Carol Baughman, Dorothy Chikly and Jon Brady were present. Jim Gates was absent. Others present included Cathy Sowers, Jim Koger, Don Bryant, Peggy Waldman, and Ed Harmison.</p>
<p>MOTION, APPROVE AGENDA: (B)</p>	<p>Following discussion, Carol Baughman (Joanne Allen) moved to add the following items to unfinished business: reviewing the Osage County Herald Chronicle ad proposal in the updated building permit form; will add one new business item for some additional warrants to discuss; we will hold an executive session at the completion of new business to discuss personnel matters of nonelected personnel; motion carried 4 to 0.</p>
<p>MOTION, APPROVE CONSENT AGENDA: (C.1 through C.11)</p>	<p>There were no reports from animal control code compliance or Park and Rec. There was discussion about some items in the warrant list. The checks to G&G Excavation and Leo Lang Concrete need to be earmarked as part of the library project. Carol Baughman (Jon Brady) moved to approve the consent agenda. Motion carried 4 to 0.</p>
<p>SPECIAL REPORTS: OSAGE COUNTY ECONOMIC DEVELOPMENT DIRECTOR STEPHANIE WATSON: (D.1)</p>	<p>Stephanie Watson from OCED was present to discuss a senior housing project/tax credit project. In addition to Overbrook, the project potentially could involve Burlingame Osage city, Lyndon, Hardeeville, Melbourne, and Williamsburg from Franklin County. Bill Caton from Auburn and Dave Osborne from Osborne construction were here as well to assist Stephanie in the discussion. Mr. Caton gave details of his involvement in a similar project in Humboldt Kansas as well as details on how a tax credit project works. It is a very competitive process. There was extensive discussion on the process. It was noted that investors are typically buying an ownership interest in a limited liability corporation (also known as an LLC) or a partnership. Mr. Caton indicated that an additional plus was that it keeps monies local. The tax credit program was started in 1986. There is risk involved. There was additional discussion. Since we weren't part of the original plan, a market study may need to be conducted to see if we meet the requirements. There's a possibility that the existing market study for the project can be amended to include justification for adding the four units in our community. There was discussion as to why we were not part of the original application. What is the next step? Item 1 the application requires a resolution of support from the governing body. Basically that means that the governing body is aware of the project and aware of its location. The location currently in consideration is zoned R1 and would need to be rezoned for multiple family. Item 2 with the belief that there would be no huge obstacle to the rezoning process the group would request a letter from the city acknowledging the need to be rezoned to multi family. The application has to be submitted by the first Friday in February of 2014.</p> <p>There was discussion regarding the availability of utilities at the proposed location. Consensus was to have Don Bryant review the utility situation and Council will review the matter further at the January 2014 Council</p>

	<p>meeting. Council member Dorthy Chikly asked if there are other locations that might provide more economic growth for the city. There was further discussion. The Mayor suggested that we invite the planning commission president and Housing Authority chair to the January Council meeting to be part of this discussion. Mr. Caton indicated that his group will ask the Council to waive upfront fees such as the building permit fee and any utility connection fees as part of the application. Mr. Osborne gave input that the project would offer lots of positives for the community.</p>
<p>SPECIAL REPORTS: JOE GREENE OSAGE WASTE: (D.2)</p>	<p>Joe Greene was present to discuss some recycling possibilities that the Mayor had asked him to look into for us.</p> <p>As far as central drop-off point goes: Joe indicated that with him being new to this and not having done it elsewhere he looked first at what a 30 yard rolloff would cost. He also found out that if items were contaminated he'd have to haul to dump and pay to dispose of those items so that was a concern for him. There was discussion. Preliminary estimates at 440 water meters he'd have to charge \$2.50 per resident per month with us continuing to bill as we do now. Joe based this on an estimate of approximately \$500 in fuel costs. This would be a single stream recycling option at a central location. The rolloff would have three covered doors on each side. The Council discussed how much usage we have and whether the community would prefer or even be interested in curbside single stream pickup. As it is this \$2.50 increase would take the monthly residential trash cost of \$15.16. Consensus of the Council was for Jim Koger to look to see if there were any grant monies available for recycling. After further discussion no action was taken. We will discuss this item further at a future Council meeting.</p>
<p>PUBLIC COMMENTS: (E)</p>	<p>There were no public comments.</p>
<p>PROJECT UPDATE: LIBRARY PROJECT: (F.1)</p>	<p>The panels are supposed to ship on December 20 if they don't pass inspection it will be delayed one week. Items that will be discussed include Hans Fischer Bill from October, pay app's 12 and 13, and the punch list. Peggy Waldman was part of this discussion. Peggy indicated that there is no master key yet. Carol Baughman described the recent discovery of roof leaks. The punch list has 13 items remaining.</p> <p>Jon Brady expressed concern that the substantial completion certificate had been signed before the Council signed off on the document. Don Schultz took responsibility but indicated he'd sought approval from the library board and LAT before signing.</p> <p>Joanne Allen (Carol Baughman) moved to sign pay app's 12 and 13. Motion carried 4 to 0.</p> <p>The additional monies to Hans Fischer were discussed next. Since the library board recommended only paying \$8496.09 at this time, Jon Brady (Dorothy Chikly) moved to follow the recommendation of the library board and authorize the \$8496.09 payment for the October bill to Hans Fischer. Motion carried 4 to 0.</p> <p>The final figures for property insurance or not in yet we hope to have them soon.</p> <p>On Saturday, December 14 the Library Board and volunteers will begin</p>

	moving things from the old gym to the new library. They plan to begin at 8 AM.
PROJECT UPDATE: ALLEY/SIDEWALK PROJECT: (F.2)	The alley work aimed to begin on Thursday, December 12. We will still need to work on Joy Schwanke's driveway and retaining wall. The Mayor asked if century link will be on-site as requested. We also need to find out if century link needs to be on-site when the work is done on Joy Schwanke's driveway and retaining wall. We hope to use some of the alley rock in between the parking spaces. Jon Brady was asked how long will the process take he did not think it was that long but wanted to make sure it wouldn't be too cold for Leo Lang to do the concrete work. Jon will be around on Friday the 13th.

Our caseload is down for the year, however yesterday was different. He'll work to help ease the transition. Carol Baughman as liaison to the law Department along with probably one more councilmember will be part of the interview committee. We've held interviews with nine applicants. Joanne presented two names from those applicants for the Council to consider. The first, Susan Meng, was a County clerk for 24 years, had considerable experience with Microsoft Word and Excel, and had previous work experiences both an executive secretary and a teller at a bank.
